Ref.: Further Written Statement - Glossary, SAMM128, Matter 1 Issue 2 Q3

We welcome the inclusion of the amended glossary in the Exeter Plan document (SAMM128). This follows our suggestions made at all the different phases of the Public Consultations, including our response to the Regulation 19 version.

The list of amendments (SAMM129-136) still does not include the following entries, where a central definition would help to clarify the Plan and make it more accessible:

- 'Affordable private rent'
- 'Appropriate densities' compared to 'optimal densities'
- 'High quality homes' (used 92 times)
- 'Active streets' compared to 'healthy streets'
- 'Active travel'
- 'Meanwhile uses'

Kind regards,

Chair, Strategic Planning & Highways Group
