3.b. If no, please give details of why you consider this part of the chapter is unsound. Please be as precise as possible.

Overall, this chapter does not support a car free lifestyle. The need to be able to access public transport during day and night plus safe routes for active travel is key. Residents of the new low car neighbourhoods should not be forced to buy a car because they move in and the promised safe cycle routes are not in place. The plan is not sound as the supporting investment and ambition in public transport and active travel is not committed and confirmed by DCC.
