- Despite acknowledgement within the plan and evidence base of a significant sub-regional context for the City of Exeter (shared with neighbouring authorities including, but not limited to, East Devon), the policies in the plan do not positively and proactively address this context and shared ambition for sustainable development within this part of Devon. This impacts adversely on policies within the plan relating to the provision housing, the provision of employment land and delivery of economic growth, and infrastructure. As covered in response to other policies, to be positively prepared:
 - the plan should look to meet more ambitious levels of housing within the City (or otherwise quantify shortfall which should be met within the wider Housing Market Area in collaboration with neighbours);
 - the plan should more positively looks to address the affordability of housing, including the delivery of affordable housing, where the strategy based on brownfield regeneration may result in relatively low levels of new provision;
 - the plan should quantify, with far greater clarity and precision, the level of jobs that are being planned for (as part of a strategy to boost economic growth), how needs are being met in full, and if there are residual needs, how these have been addressed via collaborative working with neighbouring authorities.

5 (c). Please set out the modification(s) you consider necessary to make this part of the Exeter Plan sound, in respect of any soundness matters you have identified at 5(b) above.

You will need to say why each modification will make this part of the Exeter Plan sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.

- The Plan should be further reviewed and modified in order to ensure that the full housing and economic development needs of the city, within its sub-regional context, are being identified and met. Where there are unmet or residual needs these should be clearly stated in order to provide for effective collaboration with neighbours as part of the Duty to Cooperate.

6. Do you consider that this part of the Exeter Plan complies with the Duty to Co-operate?

Yes

No

6 (a). If yes, and you wish to support this part of the Exeter Plan's compliance with the duty to co-operate, please use this box to set out your comments.

(Continue on a separate sheet if necessary)

6 (b). If no, please give details of why you consider this part of the Exeter Plan fails to comply with the duty to co-operate. Please be as precise as possible.

(Continue on a separate sheet if necessary)

- The Plan and associated Duty to Cooperate Statement does not deal with substantive issues of unmet housing needs or unmet economic development needs that would likely arise from the policies of the plan, and which should be addressed in a collaborative way with neighbouring authorities in order to meet the requirements of national planning policy and best promote sustainable development in this part of Devon.

- The Plan and associated Duty to Cooperate Statement does not provide clarity that strategic infrastructure issues (including transport) have been robustly co-ordinated across the wider sub-regional area

Please note that non-compliance with the duty to co-operate is incapable of modification at examination.

7. If you would like to make representations on the Sustainability Appraisal (SA) please provide your comments here, stating to which part of the SA your comments relate.
