ECS does not understand the reasoning behind introducing a reduced rate of affordable housing for brownfield land. As reasons for the differentiation of affordable housing minimum targets between brownfield and greenfield land 6.16 refers to the 2024 Exeter Local Housing Needs Assessment. But this most recent study proves a substantial and sustained need for affordable housing in Exeter for the period 2021-2041, calculating that 862 of households per annum will be unable to afford housing costs, or 16,092 for the whole period (5.24, 5.34, 5.50). This proves a substantial and sustained need for affordable housing in Exeter.

Though a reduced rate of affordable housing on brownfield land seems to be reasonable due to higher development costs on this kind of land, ECS promotes reverting to a single minimum target of 35% affordable housing for all sites. Reason: Viability assessments cover the development costs on each site and this then needs to be argued on a case-by-case basis to deliver affordable housing. To front-load this here in a reduced rate of brownfield land, decreases the potential efforts to be made by the developer unnecessarily at a stage where this is not needed in the planning application granting process. We have doubts that such a policy would provide the high number of affordable housing needed in Exeter.

The layout (spacing) of H4 is misleading, as Paragraphs a. to h. refer to both Greenfield and Brownfield land.

5 (c). Please set out the modification(s) you consider necessary to make this part of the Exeter Plan sound, in respect of any soundness matters you have identified at 5(b) above.

You will need to say why each modification will make this part of the Exeter Plan sound. It will be helpful if you are able to put forward your suggested revised wording for the relevant policy or paragraph. Please be as precise as possible.

ESC suggests to delete the differentiation between Greenfield and Brownfield land, and revert to one single minimum percentage of 35% affordable housing.

Correct the spacing according to 5(b).

(Continue on a separate sheet if necessary)

ECS wants to provide the examiner with additional material from the latest decisions about affordable housing deliveries in major projects to further strengthen the point about a single minimum percentage of affordable housing.

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.
